BRYAN GETS BIG FROST IN PALATKA

Very Few Heard His Address-Night Was Cold.

Nathan P. Bryan, candidate for United States Senator, who spoke at the court house last Saturday night, didn't carry away with him any great hope for a big vote in Palatka. It was a cold night and there was

some delay in getting the court house lighted. By 8:30 when the meeting be-gan, there were but 18 persons present. The speaker was introduced by Mr. ohn N. Walton. The News has spoken of Mr. Bryan's

personality. He is one of the leading lawyers of Jacksonville, a man of ability and character, and in every way quali-fied for the high office he seeks. But that his candidacy does't take in

Palatka is a fact apparent to any one who will take the trouble to make enquiry among the voters.

His speech at the court house was most excellent from the stand point of

personal politics, the speaker was lis-tened to with interest and given fre-quent applause; after he was through he was congratulated by the few present; during the afternoon in his rounds through the business section of the city he was given the "glad hand," but— there is no interest here in his candi-Nor has interest risen to a white heat

The temptation of a larger salary, even to a man of Mr. Dutill's self-sacrificing love for the work, is a strong one and one that St. James can only remove by advancing the salary to a larger and more attractive figure. St. James church ought, by all means, to leave no excuse in the way of removal before the expiration of the constitutional limit, of a man of Mr. Dutill's splendid pulpit and pastoral abilities.

RAILROAD INTO THE EVERGLADES

The Florida East Coast Has Let Contract for 130 Miles

And Will Open Up a Fertile Section. From an interview with President J R. Parrott of the Florida East Coast Rail-way, the St. Augustine Record of Wed-nesday publishes the plans of Mr. Flagler's new railroad enterprise which is to tap the rich Everglades section to

Lake Okeechobee.
"The contract for the construction of the line," says Mr. Parrott, "has already been let to the Kissimmee Valley Conthe line, "says Mr. Parroit," has already been let to the Kissimmee Valley Construction Co., a Delaware company with offices in this state. Work is to begin within a few weeks and completed in three years. It is expected that it will be completed in this time, though it will be held back unless all rights of way can be secured without trouble. It is not anticipated that there will be any hindrance in this regard as the owners of the property through which the road will pass will be greatly benefitted by its coming."

The proposed extension of the Florida East Coast railway as decided upon by Mr. Flagler will be from Maytown on the Titusville division southwesterly to a point on the northern or eastern side of Lake Okeechobee, a total distance of

Lake Okeechobee, a total distance of about 130 miles.

A branch road will probably be built

from this line at Whittier across the Kis-simmee valley to Fort Bassinger on the Kissimmee river. It is possible that the main line of the new extension may later be built on through the reclamation district to the present line of the railway on the lower coast, but that de-pends entirely upon the future and no such plan is at present in even tentative

The new railroad traverses a region of virgin forests of magnificent timber and of lands that are the most fertile in the world. Some farming and orange grow-ing has already been done in the region reached but only in a limited way owing to the lack of transportation facilities. Enough has been done, however, to fully establish the fact that there are no where else. The splendid timber contains untold wealth in lumber and naval stores. The kissimmee valley will be opened up as will a section of the east coast that has not before been easily

The building of this new road, says the St. Augustine Record, will mark the beginning of the development of the rich interior section extending from Lake Harney and the St. Johns river south to the Everglades and on to Okce-

at the Howell Theater next week, Fri-day night, December 16th.

The author of the play is an actor of wide experience and fully understands the art of playmake from the standpoint of both the spectator and actor. His ef-fects are produced quickly, but none the less does he hold patent sway over the passions of his auditors.

The play is too well known to require more than a passing word on the plot. The main thread of the story centers around Tom Logan, who is unjustly ac-cused of murder and sentenced to life imprisonment. His wife, Jeanette, who is a proud ambitious woman, runs away wifh an old lover and goes to New York. Even in a woman degraded as she is, the instinct of motherhood prompts her to return to the old home to try to gain possession of her child Grace, but she is frustrated in her design and the clouds of adversity are dispelled by the sweet
